Dear Student,

I am sure you are aware of the recent Government announcement regarding coronavirus and in line with this our College will close to students apart from those with parents who are key workers or those of you classified as vulnerable.

To prevent the spread of coronavirus the advice is that if you can stay at home safely, then we would ask that you do so. However, if you aren't happy or you don't feel safe in your home environment, you are welcome to come to College.

**Please be assured we will never turn any student away, should they wish to attend because they would feel safer at College.**

We fully appreciate that you have worked hard on your College course, and do not want your learning to be disrupted so your curriculum department will be getting in touch with you very soon (if they have not done so already) to let you know how to undertake learning activities remotely. Our expectation is that you continue to engage in learning to ensure you remain on track with your education.

Please stay safe and look after yourselves during this unprecedented period and remember that the College is here for you should you need us.

We will also be updating our website regularly, as well as our social media channels, so please check these for further information.
